

Grind and finish in one step with Cyclone™ abrasive flap discs. Ideal for weld blending, grinding, cleaning, finishing, stock removal, edge chamfering and deflashing.

Cyclone Trimmable Flap Discs

Type 29 - Zirconium - Composite Backing
The trimmable backing allows for more flap flexibility. By trimming the backing, the flap length is extended, enabling the operator to access hard-to-reach areas. The non-marking backing will not damage the workpiece.

The backing can be trimmed up to 3/8" from the original diameter, dramatically extending the life of the disc.

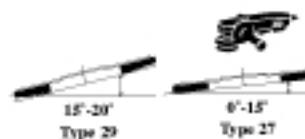

Diam.	Arbor Hole	Grit Size	Max. RPM	Standard Pack	Item Number	List Price Ea.
4-1/2	7/8	40	12,000	10	43650	\$9.48
